PRESS RELEASE

AMICO CONSORTIUM ACHIEVES FINANCIAL CLOSE ON GRANDVIEW CHILDREN'S CENTRE

Toronto, Ontario- April 13th 2022

Amico is pleased to announce that the Children First Consortium, in which Amico is a proponent team member with Sacyr and designers Parkin Architects, has achieved financial close on the Grandview Children's Centre (the new Grandview Kids). The project will begin immediately with design and pre-construction activities and will result in an approximate 100,000+ square foot building on a five acre site. The new Grandview Kids will be delivered as a design, build and finance contract and will improve the range of rehabilitation services for children and youth with special needs in the Durham region.

The new Grandview Kids will support the seamless and coordinated provision of family-centred care for children and youth with physical, communication and developmental needs and their families. A community pool, a gymnasium, an outdoor walking path and many other amenities will make sure that the new Grandview Kids will be an activity hub for the community. In addition, the new Grandview Kids will offer a variety of therapy services, developmental paediatric services, the Ontario Autism Program, family and caregiver resources services, school-based rehabilitation, preschool outreach, speech-language pathology, audiology as well as the Campbell Children's school.

Dominic Amicone, President and Founder of Amico says "Amico is excited to achieve financial close and now begin pre-construction activities for the new Grandview Kids and work with our partners in construction, design, community stakeholders and with Infrastructure Ontario and Grandview Kids to deliver this wonderful and meaningful project. This project furthers Amico's strategic initiatives in Ontario's health care sector and the company's and Province's continued commitment to delivering health care infrastructure in Ontario for Ontarians."

More about Amico

Amico is an industry leader with over 30 years delivering complex design-build and large-scale infrastructure projects in the province of Ontario. With a fully integrated workforce, Amico implements a solutions and innovation based approach to serving customer needs and consistently produces infrastructure that is of lasting value to the community it serves.
