

Amico consortium announced as Preferred Proponent on Hurontario Light Rail Transit

Toronto Ontario- August 30 2019:

Amico, as a member of the Mobilinx consortium, has been selected as Preferred Proponent for the Province's Hurontario Light Rail Transit (HuLRT) project. Mobilinx is a consortium, composed of Amico, Astaldi, Bot, Hitachi, John Laing, Salini Impregilo and TransDev, that has assembled to design, build, finance operate and maintain the HuLRT. The clients are Infrastructure Ontario and Metrolinx.

The Project involves the construction of a light rail transit system along Hurontario Street running from Port Credit in Mississauga to the Gateway Terminal in south Brampton. The HuLRT includes 19 stops and will operate in a separated guideway with traffic priority throughout most of the 18 kilometre corridor.

Dominic Amicone, President and Founder of Amico says *"the HuLRT project is a very significant investment in the transportation sector by the Province of Ontario. Amico's involvement demonstrates its commitment to being a valued partner in the completion of large transportation infrastructure projects. Amico's recent experience includes the Right Honourable Herb Gray Parkway in Windsor Ontario as well as the recently announced 401 Expansion Project along the Mississauga to Milton Ontario corridor. We look forward to working with the Mobilinx team to provide this exciting, state of the art transit project to Metrolinx, Infrastructure Ontario and the people of Ontario."*

More about Amico

Amico is an industry leader with over 30 years of large-scale infrastructure and complex design-build projects in the Province of Ontario. With a fully integrated workforce, Amico implements a solutions and innovation based approach to serving customer needs and consistently produces infrastructure that is of lasting value to the community it serves.
